

I was absolutely shocked to hear about the possible changes giving LPFM priority over FM translators. I have been a long time K-LOVE listener and am appalled to think I may lose my signal to a format that is not family friendly. KLOVE is the only FM station in our area that broadcasts family oriented music. In fact I can't believe you as the FCC allow some of the garbage that's on the radio. As a single father of two children I shutter to think of the material that would replace KLOVE. I have found the Christian broadcasting on KLOVE to be very uplifting during my daily life and a true service to the public. PLEASE do not allow LPFM to supersede the FM translators that now carry KLOVE radio. PLEASE be sensitive to the thousands of people who rely on KLOVE's positive daily programming.
Thank you
